

Team Name: Sad Guys

Members: Kyle Galbraith (2432714), Luis Rodriguez (2432060)

Course: Game Development with Unity

Project Checkpoint 2

10 Features/Work Steps

1. Start Menu
2. Player Movement
3. Telekinesis (Moving objects with mouse)
4. Health System
5. Difficulty System
6. Enemies/Hazards
7. Ranking/Score system
8. Level Design
9. Level Progression
10. Collectables

Implemented Features

Telekinesis system (Moving objects with mouse) - Kyle

Camera movement (camera follow player) - Luis

Health system (Player health & damage tracking) - Luis

Player Movement (2D physic-based movement & jumping) - Kyle

Start Menu (UI menu with functionality) - Kyle

Difficulty System (Difficulty selection affecting amount of health) - Luis

4 Weeks Plan

Week 1:

- Design & implement level 1
- Add tile map
- Polish telekinesis system (visual feedback)
- Get player Sprite
- Add UI to display health

Week 2:

- Add enemies with basic pathing
- Add telekinesis push force mechanic
- Design puzzle mechanics
- Add Game Over screen

Week 3:

- Design & implement level 2
- Add additional hazards & enemies

Week 4:

- Design & implement level 3
- Add score/ranking system
- Fix bugs
